Seminar Report:

Topic—Climate Change and Global Warming

Date: 28-10-24

Location: Digital Classroom ,Basugaon College.

Organizer: Education Department.

Participants: 1st year Major students.

Introduction

The seminar on "Climate Change and Global Warming" aimed to raise awareness and foster discussions on the causes, impacts, and potential solutions to the ongoing climate crisis. The event brought together experts, researchers, and students to share insights and experiences related to climate change.

Objectives

1. To educate participants about the science of climate change and global warming.
2. To discuss the socio-economic impacts of climate change on different regions.

Participants attended workshops focusing on:

The urgency of addressing climate change to avoid negative impact on our life.

The role of technology and innovation in reducing carbon emissions

Conclusion

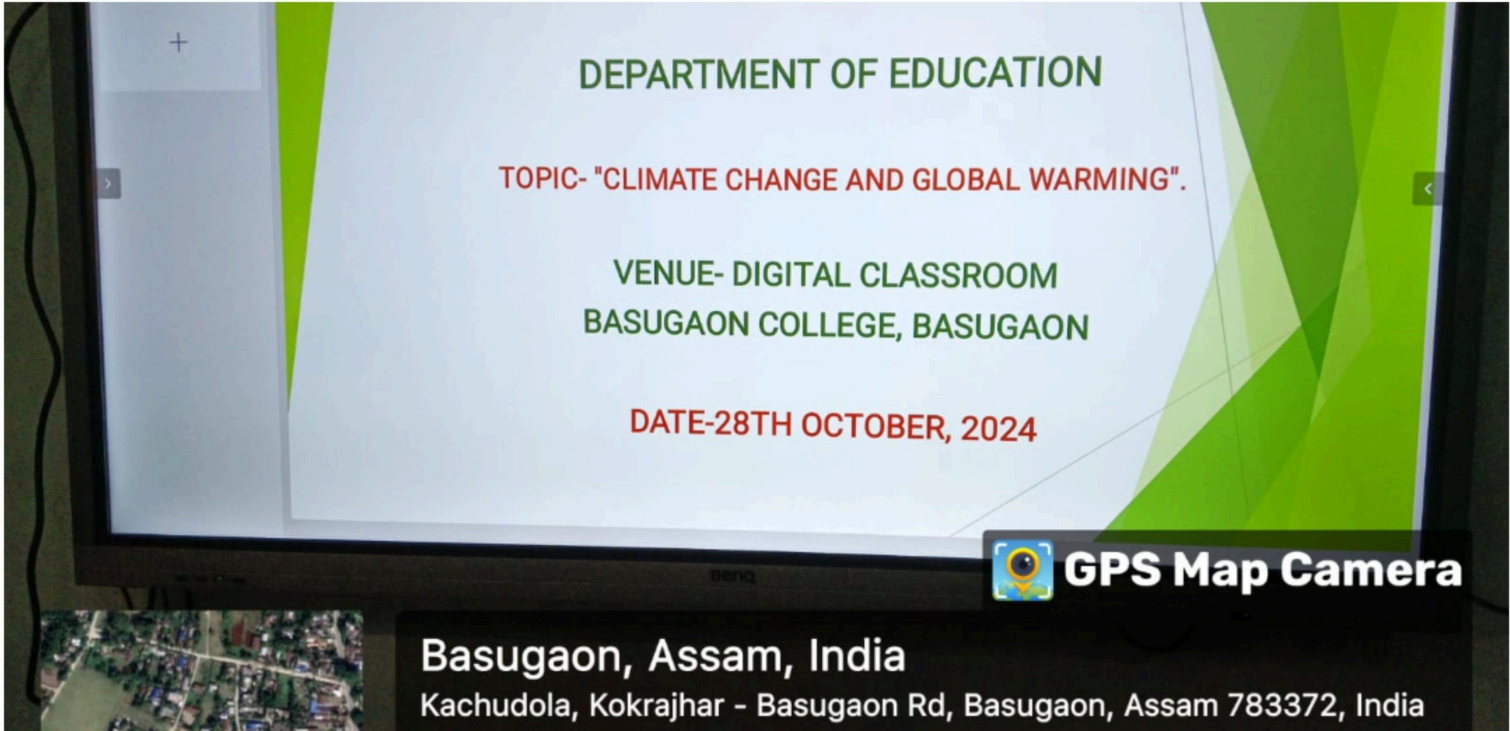

The seminar underscored the critical nature of climate change as a global challenge that requires immediate action. Participants left with a deeper understanding of the issues and a renewed commitment to contributing to solutions in its grassroots level.

Recommendations

1. Continued education and outreach on climate issues.
2. Strengthening collaborations between academia, government, and local communities.
3. Encouraging the adoption of sustainable practices in daily life.

Acknowledgments

Thank you to all speakers, participants, and for making this seminar a success. This report serves as a summary of discussions and insights shared during the seminar.
