

Departmental Seminar Report

Date: 20th May 2025

Duration: 1 Day

Venue: Smart Classroom, Basugaon College

Organized by: Department of Physics, Basugaon College

Purpose of the Seminar

The seminar aimed to enhance students' understanding of important physics concepts by encouraging them to explore and present on challenging topics. It also intended to promote scientific curiosity, strengthen conceptual clarity, and motivate students to study advanced areas in physics independently.

Overview

The Department of Physics, Basugaon College, conducted a departmental seminar on 20th May 2025 for the students of the 2nd and 4th Semesters. In this seminar, students presented on several challenging and thought-provoking topics in physics, such as Big Bang Theory, Special Theory of Relativity, and Fibre Optics etc. Faculty members from the Department of Physics as well as the Department of Chemistry were present to encourage the students and provide valuable feedback.

Outcome

The seminar enabled students to deepen their understanding of fundamental and advanced physics concepts. It also helped them improve their scientific reasoning, problem-solving, and conceptual interpretation abilities. Overall, the event successfully created an interactive learning environment and enhanced students' academic engagement in core areas of physics.

Subject: Request for Permission to Conduct Departmental Seminar

Respected Sir,

The Department of Physics seeks your kind permission to conduct a Departmental Seminar on 20th May 2025 for the B.Sc. 2nd and 4th Semester students. The seminar will focus on different topics in Physics with the objective of enriching students' conceptual understanding and exposing them to important areas of the subject. This academic interaction will help strengthen their knowledge base and promote scientific thinking among the students.

Therefore, I kindly request you to grant permission to organize this seminar in the Department of Physics.

Thanking you.
